Public Consultation on proposed Social Service Sector guidelines

Email to: pdpc_consultation@pdpc.gov.sg

Email subject: Public Consultation on proposed Social Service Sector guidelines

Major Points:

First of all I would like to thank you for the opportunities giving to us VWO to participate with this kind of orientation/training for the upcoming policies or act that the NCSS will be implementing soon.

All of the subject are clear, understandable and executable; Starting from “Collection of personal data; wether by obtaining consent, deem consent, obtaining consent from source to the Use and Disclosure of Personal Data; Same goes with our Organization Obligations to Access and Correct, the Accuracy and Protection obligation, our Limit on Retention and Tranfer limitation up to Openness Obligation.

Comments:

Our main concern is the time frame or notice given to our organization to implement and to come up with the Policy and procedure on Data Protection Processe. Though I could say that our Centre is practicing or implementing about 70% of this.

We are only requesting ample time to update our records, our consent form, map out our Personal Data Inventory and Produce our Policy and procedure.

Conclusion:

We acknowledge your concern to our organization and the general public in respect to Personal Data Protection on which I can personally admit the importance of this act. And therefore concluded to abide and implement this Act to our organization
